

FREE ON-FARM
**SAFE STORAGE
ASSESSMENT**

ARE YOU GETTING THE MOST OUT OF YOUR STORAGE?

WHAT TO EXPECT FROM YOUR ASSESSMENT

Our partnerships are important, especially with growers like you. Our number one priority is sharing insights to improve your in-bin grain management.

Our commitment to you includes:

- **Our storage specialist will be respectful of your time.** We understand how hard you work, and we make sure to be mindful of your time spent with us.
- **Safe storage assessment at no cost.** Territory managers will utilize the best modeling tools and expertise in the industry. Although free, we ensure you will reap value greater than time invested.
- **Educational experience throughout assessment.** Our storage specialist have the hearts of teachers and are passionate about what we do.
- **Your plan for success.** Each grower will receive a simple, actionable plan that will create results.

AGI AND YOU

A PARTNERSHIP FOR YOUR FARM

ON-FARM SAFE STORAGE ASSESSMENT

WHAT IS INCLUDED IN AN ON-SITE STORAGE ASSESSMENT

- **Aeration inspection:** Review fans and vents on your bins.
- **Aeration modeling:** Assess your farm's climate and your bin's specifications to test bin performance. Know 100% the capabilities and limitations of your grain storage.
- **Review university guidelines:** See safe storage information for YOUR commodities in YOUR area.
- **Learn best storage practices:** See how practices can increase profit potential.
- **Set storage goals:** Create a clear road map to increase efficiency.
- **Demonstration of AGI products:** No pressure look at how AGI products work for you.

GROWER QUESTIONS ANSWERED

- *Do I have the correct fan CFM (Cubic Feet per Minute) to reach my marketing/conditioning targets?*
- *How can my storage be improved to limit loss?*
- *Am I getting the most out of my storage?*
- *Can I increase profits with conditioned storage?*
- *Can I increase drying efficiency?*
- *What is safe when it comes to hydrating? And how much money am I leaving on the table?*
