

# Services

Specialists in Food and Beverage

# Integrated food and beverage manufacturing solutions

**Food ingredients**

**Bakery and confection**

**Pastas**

**Pet food**

**AGI** offers a full menu of food and beverage manufacturing solutions, each of which can be tailored to meet your specific needs, and your budget. From standalone offerings to providing full turnkey solutions, our team has the experience and expertise to provide integrated solutions.

**Meat and seafood**

**Liquid and beverage**

**Grains and pulses**

# Experience. Expertise. Exclusively for Food and Beverage

**Our Food Services Team** excels in providing comprehensive services, ranging from equipment installation, and millwrighting to program-specific maintenance support. We prioritize delivering fast, reliable, and value-driven support to our customers.

The key to it all is our singular focus on food and beverage manufacturing. It's an approach that's unique in the industry – and which promises a unique range of benefits for your business.

## Improved Efficiency

---

Rely on us to deliver a curated set of services for your needs, freeing up your team to focus on other production-related activities.

## Lower Total Cost of Ownership

---

Better solutions mean better results: our goal at all times is to maximize both your equipment uptime and your yields. Together, that means lower Total Cost of Ownership.

## Compliance

---

Our seasoned teams are fully versed in food and beverage safety regulations, as well as Good Manufacturing Practices (GMP). Which means you do not have to worry about compliance when you work with us.

## Timely Support

---

With manufacturing facilities across the globe and an extensive network of service providers, we ensure you have timely support to keep your operations running smoothly.

# Millwrighting

AGI's highly trained and fully certified millwrights and technicians are experts in the areas of human safety, clean design and food safety. We focus on regulatory compliance, facility continuity and meeting customers' safety standards. Our goal is to ensure every site location remains safe, clean, organized and efficient at all times.

## Millwrighting services

- Mechanical
- Structural
- Plumbing
- Fabrication
- Crane and rigging
- Welding specialties
- Skilled supervisory services

# Installation & Relocation

Whether you are adding to or upgrading an existing facility, or launching an entirely new operation, we have you covered. We understand the specific requirements and challenges related to food safety standards (like HACCP), when commissioning equipment, sanitation, equipment calibration and operational efficiency in food production environments.

Working closely with the general contractor and other stakeholders, we ensure seamless integration of food processing equipment with the facility's infrastructure, including utilities.

## Installation and relocation services

---

- Erecting and rigging
- Equipment installation (installed, dismantled, and relocated)
- Line relocations
- Facility startup
- Waste management
- Precision equipment setting
- Structures
- Fabrication
- Conveyor systems
- Heavy hauling
- Demolition
- Sanitary piping

# After Sales Service

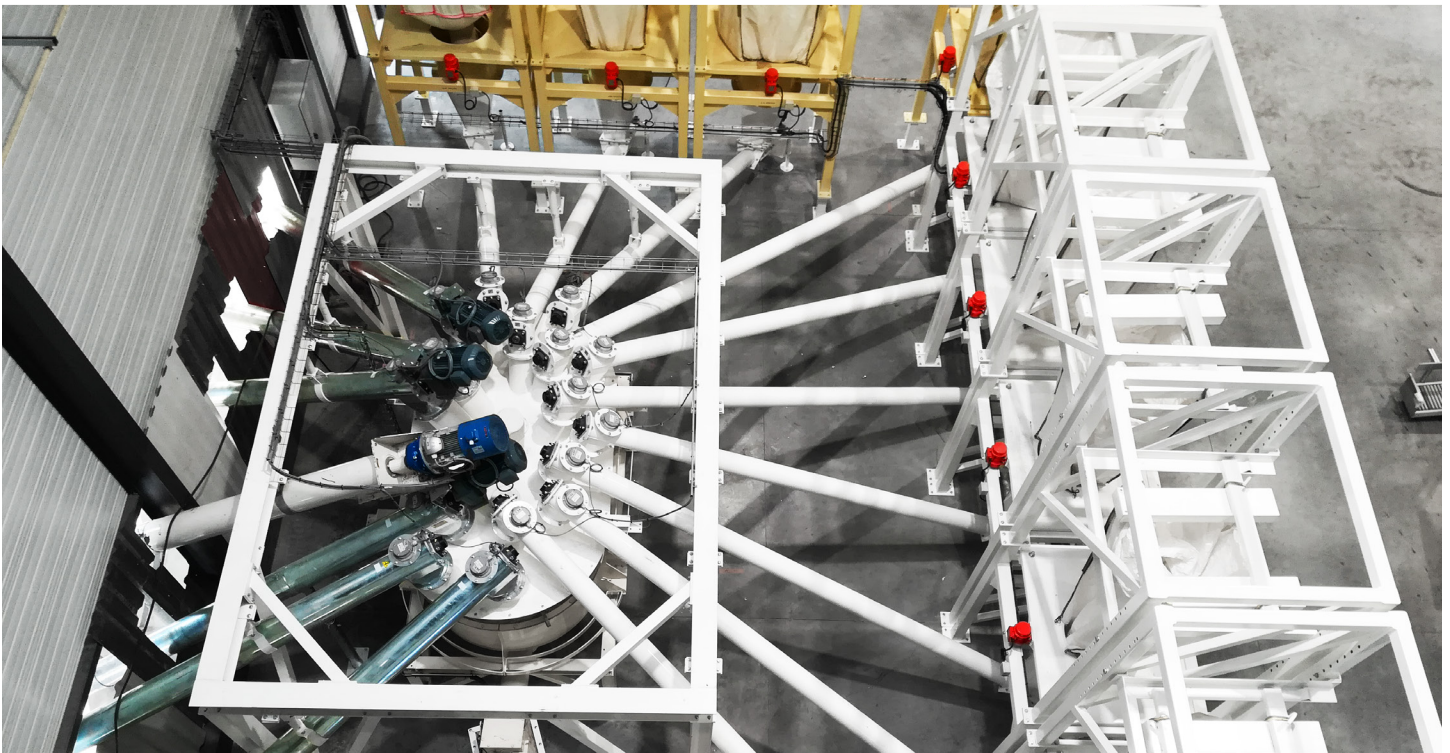

At the core of our After Sales Service is our flexible approach and how we adapt our offerings to the individual needs of every customer. Your operations will change and grow; our goal is to change and grow along with it.

Whether it's developing a complete spare parts program or planning and executing retrofits and upgrades, our team is dedicated to providing you with the best experience possible. By leveraging AGI's reach and purchasing power, we can ensure you always get what you need, where you need it, when you need it.

## After Sales services

---

- Spare parts
- Training
- System audits
- Plant maintenance
- Upgrades
- Production ramp-up
- Expert services
- Preventative maintenance
- Warranty support

# Discover the difference of working with AGI

With our experienced teams and specialization in the food and beverage industry, explore the many reasons why working with AGI can bring more value.

## Food Safety

---

AGI is well-versed in food safety regulations and industry standards, ensuring that all installed equipment is compliant. General contractors are simply not as attuned to these standards, potentially impacting sanitation and cleanliness during installation.

## Clean Design

---

We are adept at maintaining clean design and sanitation protocols, using appropriate barriers and controlling ingress points to minimize contamination risks. General contractors sometimes miss setting up appropriate hoarding barriers or maintaining the necessary sanitation of tools, increasing the risk of contamination.

## Precision and Fit

---

AGI focuses on the details of equipment installation, ensuring that each install functions optimally within the system as a whole. General contractors may be less aware of the intricacies of food and beverage production, and how different types of equipment perform as part of the overall operation.

## Minimal Downtime

---

AGI is experienced in scheduling projects to minimize plant downtime, which is crucial for maintaining production continuity. Large general contractors focus on the big picture, rather than the intricate details of machinery and production workflows. That means potentially longer wait times before your facility is fully back up and running.

AGI is a global leader in supplying farm and commercial customers with the manufacturing, planning, and engineering of full equipment solutions for grain, seed, fertilizer, feed, and food. AGI's expertise enables the storage, blending, mixing, conveying, conditioning, processing, and protection of agricultural products and inputs worldwide.

**Your safety is our highest priority.**

Please read and understand the operator's manual and safety decals before using. Use and maintain products properly, and do not modify. Keep guards in place when operating and follow all product manuals and safety decals. For all AGI products, if guards, safety decals, or manuals are damaged or missing, contact your AGI sales or dealer representative for replacements.
