

Feed Handling

Dependable Feed Handling Equipment

Yargus Feed Handling systems are designed for a range of capacities. System components can include the required combination of Declining Weight Systems, Blenders, Mixers, Hoppers with or without Conditioners and Delumpers, Augers and Laycote Systems.

INDUSTRIAL SYSTEMS

Custom Engineered Blend and Conveyor Systems for simple to complex, and small to large-scale operations.

- Bulk fertilizer, feed, salt, sand and much more

INLAND TERMINAL

Custom designed for quick unloading of rail or barges.

- Barge Hoppers with Conditioners or Delumpers available

AGI Yargus provides full turnkey solutions for all your feed handling requirements. This includes bulk receiving by rail, barge or truck, blending, mixing and loadout needs.

Yargus offers blending options for dry and liquid applications. Another custom design option is to handle granular, pellet or powder system products.

BATCH BLENDING

Custom Engineered Blend Systems for simple to complex, and small to large-scale operations.

- Layco Performance Mixer
- Tapered Vertical
- Rotary Drum

CONTINUOUS BLENDING

Custom Engineered Blend Systems for simple to complex, and small to large-scale operations.

- Declining Weight Systems

AUTOMATED COATING SYSTEM

Custom Engineered Liquid and Powder Coating Systems for simple to complex, and small to large-scale operations.

- Laycote 200 Liquid Coating System (Single Ribbon Auger)
- Laycote 400 Liquid Coating System (Double Ribbon Auger)
- Laycote Powder Coating System

DECLINING WEIGHT

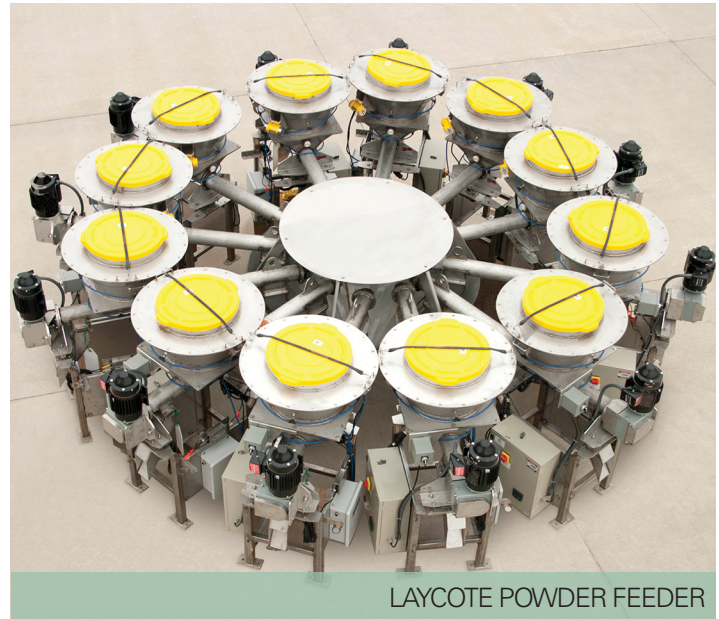

Yargus is an AGI brand.

AGI is a leading manufacturer of grain, seed, feed, food and fertilizer handling, blending, storage and conditioning equipment. Our brands are amongst the most recognized in the industry. The AGI product catalog includes portable handling equipment (augers, belt conveyors, grain vacs), permanent handling systems (bucket elevators, enclosed belt conveyors, chain conveyors, structural) and storage systems (aeration, drying, bins/silos, monitoring) that service various sectors for on-farm and commercial operations.
