

UTX

U-TROUGH AUGER

Capacities like never before

Feel the power of up to 9,000 BPH

AGI GrainMaxx is dedicated to the highest level of manufacturing quality, bringing with them over three decades of expertise in the agriculture industry. AGI GrainMaxx brings innovations to your auger, like Wear Edge Technology™ to extend the life of the flighting and powder coat paint to protect against and repel rust. Our UTX Truck Auger features a completely enclosed driveline with a solid tube guard to provide a cleaner, sleeker look while protecting your auger from the elements. Steel Hydraulic Lines have also been added to the new Self-Propelled Mover Kit to create a cleaner look and ORB Fittings on the cylinders reduce the chance of leakage.

We know farmers are looking for labor-saving, cost-effective upgrades to help make their work easier. Exactly why we've added features like a removeable tow bar to make connecting and detaching from the hitch easier than ever and a hydraulic winch to help raise and lower the auger with ease and precision. Next, to make adjusting the top drive easier, AGI GrainMaxx added a chain tensioner which also helps maintain consistent chain drive tension. The top drive comes sealed with a durable cover and inside you'll find grease-lubricated forged steel sprockets and heavy-duty chain, designed to match your auger's capacity.

For long, quiet operation, the driveshaft and bearings are constructed of durable oil impregnated hardwood and can be easily replaced without disassembling the driveshaft.

To further improve performance, AGI GrainMaxx uses square one-bolt flight connections that provide positive torque transfer. All UTX models come standard with triple banded belts to better maintain speed by providing improved tension with less slippage.

AGI GrainMaxx's UTX Truck Auger is a high performance, high capacity auger that's ready to help make your job easier and faster.

Reversing gearbox

Comes with shifting linkage and lockout, allowing the operator to safely reverse the auger at all angles.

Self-propelled heavy-duty mover

Complete with all-wheel drive, standard hydraulic steering, and rugged all-terrain tires capable of handling tough terrain, this compact mover kit gives better access to large diameter hopper bins and a sharper turning radius.

Solid Tube Guard

Triple Banded Belts

Adjustable Chain Tensioner

Steel Hydraulic Lines

Collapsing spring loaded hopper extension
Quickly and easily fit under some of your lowest and hardest to reach bins.

Work lights
LED working lights provide enhanced lighting conditions when the sun has gone down.

Triple-groove electric clutch
Start and stop the auger without shutting down the gas engine drives.

Powerful gas motor
The UTX comes complete with a powerful Vanguard gas motor and large 44-liter gas tank to help you work longer.
